

Aurum Home Care Jersey

Newsletter

An Easter Update

Since the start of 2025 the whole team at Aurum Home Care in Jersey has been keeping really busy.

We've enjoyed a whirlwind start to the year with a number of new faces joining the team and some lovely new clients coming into the Aurum Home Care Family.

At the start of the year we engaged 3C international to revamp our website. Aurumhomecare.je has a fresh new look and includes lots of new features. There's a fully searchable jobs section, lots to read in our new blog and some amazing films provided by 3Ci which demonstrate what we do on a daily basis.

1

24/7 CARE

Our community carers offer round the clock care.

2

LIVE IN CARE

We provide carers who can live with you in your own home.

3

RESPITE CARE

We offer short term care packages to give you a break.

Hiking for Dementia

Lynda Febers is taking on a South America hiking challenge.

Safeguarding

Lucy-Ann attended the Safeguarding Partnership Board's February training.

Aurum in film

We've produced some films which showcase our services and feature our lovely clients.

High Standards as Standard

The word 'Aurum' is the Latin word for gold and Aurum Home Care aspires to offer a gold standard in care. Aurum takes pride in having the most caring team, supporting clients but also look out for each other.

We believe every islander deserves the best possible quality of life. Putting clients, their families and carers at the heart of everything they do.

Aurum strives to raise the standard of home care across Jersey. Aurum Home Care is registered with the island's Long Term Care scheme - which allows for Social Services' clients to be cared for - and is also an approved provider registered with the Jersey Care Commission.

From the outset we wanted to provide a high-quality, safe, responsive home care service to islanders. We pride ourselves in having achieved that. From the office team to every single one of our community support workers, we are professional, reliable and trustworthy.

We always listen to our clients and their families before jointly agreeing what level of care is best for them.

Safeguarding training is an invaluable tool in the delivery of our services.

In February we were really excited to expand our senior leadership's qualifications. Our clients' wellbeing and safety is always at the top of the list when it come to the care we offer.

Lucy-Anne's experience on the Safeguarding Partnership Board's course allows us to provide additional in-house training over and above our regular safeguarding induction for all our lovely staff.

LYNDA AND MIA HEAD TO ECUADOR FOR DEMENTIA

One of Aurum Home Care's founders, Lynda Febers is teaming up with Mia Richardson to trek across volcanoes in Ecuador to raise money for Dementia Jersey.

Lynda and Mia are hard at work training for the trek with regular early morning north coast walks and weekend rambles around Jersey.

If you would like to support the cause and donate to Team Aurum's fundraising efforts for Dementia then please do get in touch.

Call the Aurum Home Care team on 01534 519870.
